

Block 6 – Wendy Hembree

General instructions:

The measurements given for cutting include seam allowances of 7 mm ($\frac{1}{4}$ "), rounded to 15 mm ($\frac{1}{2}$ ") for two seams. Make any necessary adjustments. The measurements in the explanatory diagrams do not include seam allowances, except for those diagrams that specify "*Seam allowances included".

For the templates, add a seam allowance of 7 mm ($\frac{1}{4}$ ") all around.

For those using the traditional cutting method, note that you will find:

- the templates on the pattern sheet; add seam allowances to them
- the quantities **in bold** in the Cutting section of each step

Cutting:

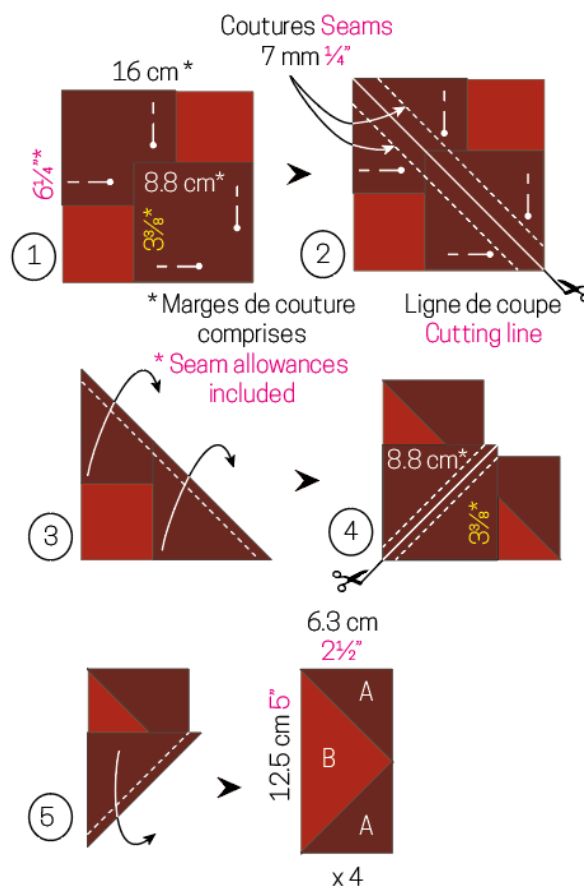

- From one fabric, dark red, cut the following:
 - four 8.8 cm ($3\frac{3}{8}$ ") squares, to yield **eight A triangles**
- From a second fabric, dark pink:
 - one 16 cm ($6\frac{1}{4}$ ") square, to yield **four B triangles**
- From a third fabric, medium red (with small stars):
 - four 7.8 cm (3 ") C squares
- From a fourth fabric, red:
 - one 14 cm ($5\frac{1}{2}$ ") D square

QUILTmania

Assembly :

Diagram 1 :

1. With right sides together, on two opposite corners of one large 16 cm ($6\frac{1}{4}$ " square, place two small 8.8 cm ($3\frac{3}{8}$ " squares.
2. Mark the diagonal cutting line and two parallel dotted lines (seamlines) at 7 mm ($\frac{1}{4}$ " on either side of the cutting line.
3. Stitch along the entire length of these two seamlines and cut in two on the centre line.
4. Turn the small triangles toward the outside and press.
5. On each unit obtained, with right sides together, place another small square on the right angle of the large triangle. Again mark the three lines.
6. Stitch along the two outer lines then cut on the centre line.
7. Turn the triangles toward the outside and press. You will obtain four identical flying geese blocks.

QUILTmania

Diagram 2 :

Rows 1 and 3: Stitch one flying geese block to either side of the C square.

Row 2: Stitch one D square to the ends of the remaining flying geese blocks and join them to the top and bottom.
